Re: Measurement facility located at Bergisch Gladbach
3 & 10 meter site
Date of Renewal: October 04, 2016

Dear Sir or Madam:

Your request for renewal of the registration of the subject measurement facility has been received. The information submitted has been placed in your file and the registration has been renewed. The name of your organization will remain on the list of facilities whose measurement data will be accepted in conjunction with applications for Certification under Parts 15 or 18 of the Commission's Rules. Please note that pursuant to FCC Report and Order 14-208 this registration program will end July 12, 2017 and all testing for products subject to equipment authorization type Certification will be required to be tested at a testing facility that is accredited and recognized by the FCC as accredited.

Measurement facilities that have indicated that they are available to the public to perform measurement services on a fee basis may be found on the FCC website www.fcc.gov/eas under the link for Test Firms.

Sincerely,

Phyllis Parrish
Industry Analyst
